SAMPLE SAMPLE SAMPLE SAMPLE

(Title of Project)
Consent Form
Study Conducted by: (Principal Investigator's Name Here)

Please read the following information and, if you consent to participating, sign below. The purpose of this study is to examine the links between childhood experiences of care and rejection among college students and their current experiences of university life, and life more generally. In this way, the research hopes to better understand links between the past and the present for a group of college student volunteers, of which you may be one.

The study will be represented as a research paper for (Principal Investigator's Name Here) Senior Work Project in Psychology for Eugene Lang College. Subjects will be asked to fill out two questionnaires concerning (1) childhood, and (2) current life. Each subject will be assigned a number in order to provide anonymity of response, and therefore do not put your name on the forms. For Lang student participants taking a psychology course, you may be able to receive course credit.

I have read and understand the above information. I am aware that some questions touch on sensitive subjects and require recapturing memories and feelings from the past. I understand that at any time if I feel uncomfortable, I have the right to end my participation with no negative consequences and my responses will remain anonymous. If there are any questions please feel free to contact (Principal Investigator's Name Here)at (Email Address Here) or, the supervisor of the research (Supervisor's Name and Email

Address Here), or the Institutional Review Board-Human Subjects Committee coordinator, 212-229-5727 ext. 3102.
