Undergraduate and Graduate Dual-Degrees and Double Majors

12.19.12

This document is meant to offer a common understanding of what dual-degrees and double majors are approved at the university. If there are additional dual-degree options that faculty and students would like to pursue, all requests for options not listed should first be brought to the student's or faculty member's Department Chair or Program Director. The Chair/Director will determine if it is appropriate and feasible to bring the idea to the Dean's Office for further consideration and state approval through the Provost's Office. This document will be updated as new dual-degree and double major options are approved.

After discussions within the Provost's Office and with the University Registrar, the following parameters have been determined for the university.

DUAL-DEGREES:

Current approved dual-degree programs at The New School:

Undergraduate *(please see next page for details of approved Bachelors-Masters programs)*:

BA/BFA BA/MA BA/MS BS/MA BS/MS

Graduate:

M. Arch/MFA Lighting Design

DOUBLE MAJORS:

Undergraduate:

Undergraduate students enrolled in BA, BM, BS, BFA, MM, PDPL, or UPDL programs may pursue double majors as part of their course of study. As stated above, students cannot receive a dual degree BA/BS, so cannot earn a double major by earning a BS in one subject area and a BA in another. Lang and NSPE students cannot earn a double major between a Liberal Arts degree and any other approved major (or minor). Mannes students must audition and be accepted for each major field of study. Students interested in pursuing double-majors should first consult with advisors in those programs/majors to learn whether completing requirements for two different majors, even with the ability for some courses to be "double-counted" would increase the length of a student's time at the university. Divisions and programs are encouraged to document and establish guidelines for such occurrences.

Graduate:

MFA Lighting Design/MFA Interior Design

Doctoral students in the following departments may have a second major in Historical Studies:

- Anthropology
- Economics
- Politics
- Sociology

APPROVED BACHELORS-MASTERS PROGRAMS

Undergraduate Dept/Major	Div	Degree	Total Credits	Swing Credits: 12	Graduate Department/Major	Div	Degree	Total Credits
Liberal Arts	Lang, NSPE	BA, BS	120	12	Anthropology	NSSR	MA	30
