

## Student Reporting Need

Provide the ability to access information about the academic history of registered GF students as of a specific term.

This view retrieves course\_term, maintain\_term and total\_incomplete\_credits, personal data, addresses, telephone numbers, degrees, student's level GPA, term GPA, most recent academic standing, and dean's list.

This view is similar to AS\_ACADEMIC\_HISTORY\_SUMMARY, however it only retrieves GF students who registered in Term\_Code\_Key. This view also includes those don't have any academic history.

This view returns one record per student per term enrolled.

**View:** GF Student Academic History (NS\_AS\_GF\_ACADEMIC\_HISTORY)  
Sql source code: nsv\_asgf\_academic\_history.sql

Below is a list of the main database tables accessed by this view:

- SFBETRM Student Registration Table
- SFRSTCR Student Course Registration Repeating Table
- SGBSTDN Student Base Table
- SPBPERS Basic Person Base Table
- SPRADDR Address Repeating Table
- SPRTELE Telephone Table
- SHRDGMR Degree Table

- SHRTTRM Institutional Course Maintenance Term Header
- SHRTCKG Institutional Courses Grade Repeating Table

**Key attributes:**

The key attributes of this view are:

- Student Personal ID Master PIDM\_KEY or ID
- Term Code TERM\_CODE\_KEY

Since the PIDM is an internal ID number unique to each student, the view returns one row of information per student per enrolled term.

**Mandatory Conditions:**

The following conditions must be supplied

- Term Code TERM\_CODE\_KEY

Specify the most recent term to select only GF students who had registered for at least one GR or AU class in this term.
