

Student Reporting Need

Provide the ability to access student international information.

View: International Visa Information (NS_AS_INTERNATIONAL)
Sql source code: nsv_as_international.sql

Below is a list of the main database tables accessed by this view:

- SPRIDEN Person Identification/Name Repeating Table
- GOBINTL Visa International Information Table
- GORVISA Visa Information Table

Key attributes:

The key attributes of this view are:

- Personal ID Master PIDM_KEY

Since the PIDM is an internal ID number unique to each person, the view returns one row of up to three Visa Types and visa related information (displaying across) for each person.

Mandatory Conditions:

There are no mandatory conditions for this view.

Attributes:

Attribute	Source Form	Source Field or Function Name	Description
