

Student Reporting Need

Provide the ability to access population selection extract data.

View: Population Selection Extract Data (NS_AS_POPSEL)
Sql source code: nsv_aspopssel.sql

Below is a list of the main database tables accessed by this view:

- GLBEXTR General Letter Population Extract Data
- SPRIDEN Person Identification/Name Repeating Table

Key attributes:

The key attributes of this view are:

- Application of the Population Selection APPLICATION
- Population Selection Identifier SELECTION
- Creator ID CREATOR_ID
- User ID who entered or last updated the record USER_ID
- Personal ID Master PIDM_KEY

Since the PIDM_KEY is an internal ID number unique to each student, the view returns one row for every student per each population selection extract.

Mandatory Conditions:

The following condition must be supplied for the view to return information at the level identified above.

- Application of the Population Selection APPLICATION
- Population Selection Identifier SELECTION
- Creator ID CREATOR_ID
- User ID who entered or last updated the record USER_ID

The list below specifies the attributes included in the Population Selection (NS_AS_POPSEL) view. The list also indicates the primary SCT Banner form and the database field or function that is the source for each attribute.
