

# Instructor's Station

With LCD projection & sound from computer, laptop and AV devices

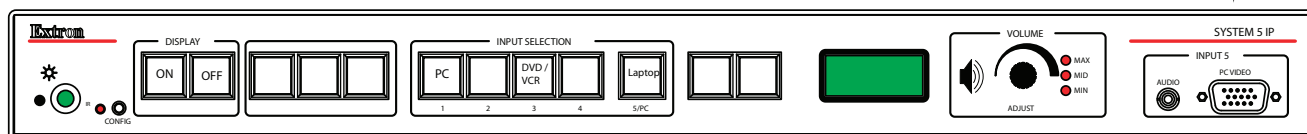

**THE NEW SCHOOL**  
A UNIVERSITY

How to use the projection system:

1. Turn on the station's computer and AV devices as needed.

Connect your laptop to the SVGA cable and power it up.

Note: Mac users may have to provide their own SVGA adaptor

2. Turn on the LCD Projector.

3. Select input i.e. computer, AV devices.

4. Adjust the volume with the level control at the rack.

5. When finished, turn off the computer and AV devices, disconnect your laptop and power down the projector.
