The data here refer to outcomes of graduates of the Class of 2019, gathered within 3 to 12 months after graduation. The New School collected outcomes from surveys and knowledge data such as New School student records, faculty, administrators, peers, and social media.

Data was collected on 1,934 of the 2,898 graduates in the New School Class of 2019, representing 67 percent of the class.

**Definition of terms:**
- **Employed:** working full-time, part-time, freelance, or in contract work.
- **Pursuing Further Education:** pursuing an additional degree at The New School or another higher education institution.
- **Seeking Employment:** looking for employment.
