Curricular Pathways - Impact

The Impact Entrepreneurship Initiative has created a curated list of master's-level courses relating to social innovation and entrepreneurship at The New School. To help students select appropriate courses and take advantage of the rich curricular offerings across various colleges at The New School, we have identified relevant courses across four thematic areas: Innovation, Management, Leadership, and Impact. We believe the courses offered in these categories will support the development of entrepreneurial mindsets, skills, and knowledge that students need to thrive in a rapidly changing world.

Impact:
