Overview of the Thesis Process

The thesis is an independent project based on primary or secondary research. Media-based theses are possible with Program approval. Theses must conform to academic standards. Students submitting the thesis must follow the following guidelines in the preparation and submission of the thesis. Failure to follow these guidelines will delay your graduation.

M.A. students choose one of three options to fulfill the GPA capstone requirement: Thesis, Research Portfolio, or Practicum. Students should decide in their second semester (or by the completion of 18 credits) which option they will pursue. Students should talk with their advisors about whether the thesis is the right option for them. Students writing the thesis register for two courses: Thesis Workshop followed by Thesis Supervision. The steps for pursuing a thesis are as follows:

I. Workshop Semester

1. Thesis Workshop
   Upon consultation with their advisors, students pursuing the Thesis Option register for Thesis Workshop, which focuses on designing and starting the research project. The Thesis Workshop is taken the semester before completing the thesis. Students should draft a preliminary 2-page statement of their proposed thesis topic and bring this statement to the first workshop meeting. The goal of the workshop is to clarify the topic, questions, data, and methods that will be used, and to begin the process of writing. The Workshop is a prerequisite for registering for Thesis Supervision.

2. Thesis Committee
   Prior to or concomitant with taking the Thesis Workshop, students put together a Thesis Committee, which consists of a primary reader and a secondary reader. The primary reader is known as the thesis supervisor (not necessarily the same person as the academic advisor) and must be a full-time New School faculty member. The secondary reader can be an academic, researcher, or professional in a field related to the student’s work and may be external to the program. External readers must be approved by the thesis supervisor.

3. Thesis Registration
   By the last week of the Thesis Workshop students must submit a Thesis Registration Form, available in the GPAI office and online. This registration form must be signed by the thesis supervisor and turned in
to the GPIA Front Desk by December 16\textsuperscript{th} for students completing their thesis the following Spring semester, and by May 10\textsuperscript{th} for students completing their thesis the following Fall semester.

II. Supervision Semester

1. Thesis Supervision
   In the semester following the Thesis Workshop, students register for \textit{Thesis Supervision}, usually under the name of their thesis supervisor. Thesis Supervision carries 3 credits. Students must have a thesis proposal and a thesis supervisor prior to registering for Thesis Supervision. At the beginning of the semester, students submit their finished thesis proposal to their first and second readers and work out a plan for completing the thesis. Theses are researched and written independently during the semester, with the advice and guidance of the thesis supervisor.

2. Thesis Submission to the Committee
   Students work with their readers to make a schedule for drafting, commenting, and revising. If thesis students do not conform to this schedule, they may miss the Program’s final submission deadline (see above) and their graduation may be delayed. If approved, the completed manuscript is submitted to the Program.

3. Thesis Deposit with the Program
   In order to graduate, a PDF of the \textit{approved} thesis (also known as the \textit{deposit copy}), bearing the signatures of the committee members on the cover page (see Thesis Format Guidelines, below), must be emailed to thesis@milanoschool.org. In addition, the supervisor \textit{must} submit a passing grade (P) for the Thesis Supervision. The thesis does not receive a letter grade.

   The thesis is due by the dates announced by the program each semester. Contact the GPIA Front Desk for due dates. Theses deposited after that date will delay the student’s graduation by one semester.

GPIA Thesis Citation Guidelines

Check with your thesis supervisor for their preferred citation style. Regardless of specific style, citations must follow academically accepted norms and consistently conform to a single recognized style. The most common style used in the social sciences is the Chicago Style’s Author-Date System, described below. You may also wish to consult Kate Turabian’s *A Manual for Writers of Term Papers, Theses, and Dissertations*, 6th ed., 1996.
