MAKE SUMMER COUNT—AT
THE NEW SCHOOL
ABOUT THE NEW SCHOOL

The New School was founded in 1919 by a group of progressive intellectuals seeking flexible, innovative models of education. Today it is a comprehensive university composed of a renowned design school, a progressive liberal arts college, a groundbreaking performing arts college, and rigorous graduate schools that offer an array of degree programs and courses. Learn more about our convention-defying schools and colleges and how their creative and academic offerings can propel you forward this summer.

Parsons School of Design
Parsons unites creativity and intellectual rigor in innovative ways that enable art and design to change the world. Since its founding in 1896, Parsons has pioneered disciplines including interior design, fashion design, lighting design, and graphic design and launched the careers of scores of creative leaders. Together we’re making the world a better place through creative undergraduate, graduate, and continuing education programs for learners of all ages, interests, and needs. The New School’s Parsons Paris campus offers courses, bachelor’s and master’s degree programs, and study abroad opportunities in an intimate learning setting in the heart of Europe.

Eugene Lang College of Liberal Arts
Lang, a progressive liberal arts school, challenges you to question everything as an intellectual thinker, artist, and doer. Courses encourage you to ask big questions and challenge assumptions through scholarship that fosters social, economic, and environmental justice. The Lang Summer Writing Intensive helps you develop your voice through guided exercises and workshops. Networking events with industry professionals immerse you in New York City’s literary culture.

College of Performing Arts
The College of Performing Arts brings together our celebrated undergraduate and graduate programs in drama, jazz, and classical music, freeing students to collaborate with peers in all programs and create wholly new art forms. This summer, unleash your creativity and develop your craft in an acting intensive.

School of Media Studies
The School of Media Studies’ faculty of working professionals guide undergraduate and graduate students through curricula that bring together hands-on media making, critical analysis and reflection, entrepreneurship, and management. In the summer course on multimedia storytelling, you get the tools, collaborative working methods, and individual attention you need to create finished pieces.

Creative Writing Program
The New School held the first academic creative writing workshop in 1931 and today is home to daring, diverse literary voices and publishing professionals. Graduate students in the program develop their craft in workshops and seminars led by a faculty enmeshed in New York’s publishing and creative writing scene. The Summer Writers Colony places you in a community of peers who help you expand your expressive abilities and literary universe.

Milano School of International Affairs, Management, and Urban Policy
